We are looking forward to the new school year and welcoming our students back in September. There will be many new faces among our students in September. In anticipation of our increased enrollment we have added a 10th bus to transport eligible students.

We have reorganized the distribution of students to the ten buses and have established revised routes. Many of the bus stops remain the same while the bus and route number may have changed. Please note also that in following New Jersey law for contracting student transportation we will now be utilizing two Student Transportation Contractors. In addition to Helfrich, Jays Bus Service will now be transporting our students.

As we finalize the routes, postcards with your students' bus information will be in the mail to you. We recommend that you be at the stops early as times may vary. Primary students in grades K and 1 are to be accompanied by an adult for pick up and drop off at the stops.

If you have any questions, please email [transportation@rumsonschool.org](mailto:transportation@rumsonschool.org)
